Clinic being held here for all your aesthetic needs.

Please ask for further information and prices or message Amanda Pollock.

#### Lip Enhancement

Lip fillers can be used to give you youthful looking, plump lips, especially effective for women with naturally thin or thinning lips, giving you a more defined smile. It can help turn the corners of the mouth upwards, give lips a more youthful looking appearance and thinning lips appear fuller. We have the means to subtly improve your lips fullness, definition and overall shape with dermal fillers.

#### Anti-Wrinkle Injections

Anti-wrinkle injections are commonly referred to as 'Botox', short for Botulinum toxin. This is a naturally occurring protein that causes the muscles of the face to relax, consequently smoothing out wrinkles. It is the UK's most popular cosmetic treatment for the removal of wrinkles. Many women and men can experience a flawless complexion without the need for surgical enhancement. Frown lines, crows feet, gummy smile and bunny lines are some of the areas that can be treated using this method.

#### Nytox Vampire Facials

Nytox vampire facials address both the epidermis and dermis, protects by applying white blood cells and anti oxidants to the skin and rejuvenates by introducing growth factors and stem cells to the skin.

NYTOX Vampire Treatment® treats Lines, Pigmentation, Scars & Hair Loss by increasing Cell Renewal Time, Stimulating Collagen, Telomerase and the natural Healing Mechanism of the Skin.

#### Acid Skin Peels

Skin peels work by removing dead skin cells and encouraging new ones to grow, leading to fresher, more glowing skin. The procedure is used all over the world to treat skin problems such as acne scarring, hyper-pigmentations and sun damage. Whatever your skin dilemma there is a peel to suit.

#### Cheek Fillers

Cheek fillers replenishes lost skin volume to regain a youthful curve to the cheeks and can be used to enhance the overall shape of your face.

#### Non Surgical Rhinoplasty

Non-Surgical Rhinoplasty corrects the nose using long lasting dermal fillers without the need for costly surgery. Fillers can be used to improve the look of a variety of noses.

#### Tear troughs

For patients who are struggling with the ageing appearance of under-eye shadows or bags, it can be frustrating. Some might even contemplate surgery, which is a drastic step with a high price tag and long recovery.

#### Mesotherapy

Mesotherapy is an injection treatment that delivers nourishing substances to the layers of the skin where cell repair and growth occurs. Vitamins, amino-acids, minerals, hyaluronic acid, all essential components for healthy skin cells, can be delivered by mesotherapy. This treatment helps improve dull, tired looking skin; dry, lifeless skin, superficial wrinkles and is ideal for pre or post-operative skin conditioning.

**Other treatments available Nasolabial Folds and Lower B-Tox.**
